<u>Listing of the claims:</u>

This listing of claims will replace all prior versions, and listings, of claims in the application:

Claims 1-9 (Canceled).

Claim 10 (Currently Amended): A surgical instrument for performing an anastomosis, comprising:

a housing;

an actuator attached to the housing, said actuator including an actuating rod being selectively movable to deform for deforming at least one surgical fastener;

a firing safety mechanism including a <u>leaf</u> spring having at least one mechanical interface <u>cut out defined therethrough</u> which engages said housing, <u>said cut out of said leaf</u> spring configured <u>to engage a shoulder portion of said actuator</u> to prevent distal movement of said actuator when disposed in an armed position; and

a safety release being selectively activateable to disarm said <u>leaf</u> spring to allow activation of said actuator.

Claim 11 (Canceled):

Claim 12 (Currently Amended): A surgical instrument according to claim 41 10 wherein said safety release includes a camming surface which, upon movement thereof, cams said cut out of said leaf spring out of engagement with said actuator.

Claim 13 (Currently Amended): A surgical instrument according to claim 10 wherein said leaf spring includes a hook-like member which secures said leaf spring to said housing.

Claim 14 (Previously Presented): A surgical instrument according to claim 10 wherein said safety release includes an upwardly extending contact surface which facilitates actuation of said safety release.

Claims 15-17 (Canceled).
